

Introducing Our 2024 Implant Study Group: Restoring Implants with Confidence

ABOUT US:

Pro-Art is committed to bringing you the highest standards of quality in dental technology through our Continuing Education Program, which is why we're thrilled to announce the launch of our 2024 Implant Study Group.

ABOUT OUR IMPLANT STUDY GROUP:

Our Implant Study Group is designed to help you grow your knowledge and skillset in implantology no matter where you are in your implant learning journey.

Our Beginner, Intermediate, and Advanced courses include mentorship from leading industry experts, latest innovations in implantology, insight into new procedures, hands-on laboratory experience, networking opportunities, and real-world application.

We exclusively invite you to register to one of our implantology courses so you can achieve predictable and reliable results in your practice. Choose which level of learning is right for you and register today.

MEET OUR SPEAKERS

DR. SANDEEP DAB

B.D.S, D.D.S, M.SC. (Periodontics), F.R.C.D (c)

Dr. Dab is a board-certified periodontist who provides a wide range of non-surgical and surgical periodontal procedures. He has a special interest in dental implants and regenerative/reconstructive procedures around both teeth and implants.

Dr. Dab is a fellow at Royal College of Dentists in Canada, and instructor at the University of Toronto. He is a member of the Ontario Dental Association, Ontario Society of Periodontists, Canadian Academy of periodontology, Canadian Association of Dental Research and American Academy of Periodontology.

DR. PAX FORGHANI

B.D.S

Dr. Pax Forghani is a distinguished foreign-trained dentist and implant surgeon with a dental degree from Mexico, recognized for his exceptional contributions to digital dentistry. As a leading expert in implant systems and "All On X" treatments, Dr. Forghani has elevated surgical precision through pioneering techniques and innovative enhancements to stackable surgical guides. His expertise is evident not only in his groundbreaking procedures but also in his dedication to mentoring and supporting doctors at ProArt Dental Laboratory in Canada. Dr. Forghani provides comprehensive guidance, ensuring their implant treatments achieve unparalleled success from start to finish. Additionally, he also accompanies the doctors as chairside to provide guidance and ensure an excellent outcome, equipping colleagues with the skills needed for precise and effective guided surgeries. His commitment to excellence and innovation marks him as a truly outstanding professional in his field.
